

# CHELONE (TURTLEHEAD)

**Location:** Zone 3-4, sun to part shade

**Shape:** Dense, upright clump

**Foliage:** Dark green

**Flowers:** Late summer to fall

**Notes:** Its erect stems end in spikes of white or pink flowers, the shape of which suggests a turtle head. Plants prefer rich, consistently moist soil.

## Hot Lips

**H:** 20-24" **W:** 24"

## White Turtlehead

**H:** 24-36" **W:** 24"
