

# CURRENT

*Ribes alpinum*

## ALPINE

**Height:** 3-5'      **Spread:** 5-6'

**Location:** Zone 2, sun to shade

**Shape:** Upright, spreading hedge

**Foliage:** Dense, glossy green

**Notes:** Dense glossy leafed shrub suitable for hedges in open or shady area. Small greenish flowers in April-May. Responsive to shearing.

## GREEN MOUND

**Height:** 3'      **Spread:** 2-3'

**Location:** Zone 2, sun to shade

**Shape:** Rounded, slow growing, little pruning required

**Foliage:** Bright green, dense

**Notes:** Dense, compact form with good resistance to leaf disease. Small yellow flower clusters appear in spring followed by scarlet fruit which attracts birds. More of a mounded, spreading form compared to Alpine Currant. A nice slow-growing hedge plant that needs less pruning and maintenance than Alpine Currant.
