

BALSAM FIR

Abies balsamea

Height: 45-60' **Spread:** 20-25'

Location: Zone 3, sun to part shade, rich, acidic soil.

Shape: Pyramidal, upright

Foliage: Shiny, dark green

Notes: This native tree is abundant in northern forests and not popular as a yard or street tree, although it is a favorite for Christmas trees, and provides shelter for birds and animals.
