

# HYDRANGEA PANICULATA

*Hydrangea paniculata*

## LIMELIGHT

**Height:** 6-8'      **Spread:** 6-8'

**Location:** Zone 4, sun to part shade

**Shape:** Open, upright, rounded

**Foliage:** Green

**Notes:** Lime green, fragrant, flowers in late summer. In autumn the blooms display shades of pink, burgundy and green. Flowers on new wood so it can be pruned in winter or early spring.

## LITTLE LIME

**Height:** 3-4'      **Spread:** 3-4'

**Location:** Zone 4, sun to part shade

**Shape:** Compact, dwarf form

**Foliage:** Green

**Notes:** A new dwarf form of Limelight. Huge blooms of lime green change to shades of pink and burgundy in the fall.

## PINKY WINKY

**Height:** 6-8'      **Spread:** 6-8'

**Location:** Zone 3, sun to part shade

**Shape:** Rounded, upright

**Foliage:** Green

**Notes:** Bicolor blooms are white darkening to pink regardless of pH levels. Large flowers cover the plant completely and often turn red-dish-purple in fall. Thrives in good, loamy soil, but is adaptable to a wide variety of soils.
