

# SPREADING JUNIPERS –GREEN

## ANDORRA COMPACT

*Juniperus horizontalis* 'Youngstown'

**Height:** 18"      **Spread:** 3-5'

**Location:** Zone 3, full sun to part shade

**Notes:** Handsome, tightly branching form creates a ground cover versatile for use in rock gardens and in the foreground of borders. Bright green foliage turns a plum color in winter.

## ARCADIA

*Juniperus sabina* 'Arcadia'

**Height:** 18"      **Spread:** 6'

**Location:** Zone 4, sun to part shade

**Notes:** Rich green foliage with lacy texture and a semi-spreading growth habit. Likes fully exposed locations. Excellent for foundation and mass border planting.

## BROADMOOR

*Juniperus sabina* 'Broadmoor'

**Height:** 12-18"      **Spread:** 4-6'

**Location:** Zone 3, sun, well-drained soil

**Notes:** A dense mound of graceful, spreading branches holding bright green foliage creates an excellent choice for a large scale ground cover. Best in sun and well drained soil.
