

UPRIGHT JUNIPERS

BLUE ARROW

Juniperus virginiana 'Blue Arrow'

Height: 12-15' **Spread:** 2'

Location: Zone 4, sun to light shade

Shape: Narrow, upright

Foliage: Bright blue

Notes: Improved variety produces bright blue foliage on tight, narrow, upright form. Ideal for spatially challenged screening. Excellent in symmetrical pairs or as a single specimen. Plant as a hedge for tall narrow privacy screen. A beautiful dark green background for beds and borders.

MEDORA

Juniperus scopulorum 'Medora'

Height: 10-12' **Spread:** 3-5'

Location: Zone 3, full sun

Shape: Narrow, columnar

Foliage: Blue-green to blue-gray

Notes: A slender-shaped variety with a blue-green color. Needs little shearing to produce a narrow-columnar specimen. Slow growing. An excellent columnar blue Juniper, hardy and acclimated for the northern prairie states of the U.S. and the prairie provinces of Canada.
