

# AUTUMN RADIANCE MAPLE

*Acer rubrum* 'Autumn Radiance'

**Height:** 50'      **Spread:** 40'

**Location:** Zone 4, sun to part shade

**Shape:** Oval to rounded crown

**Foliage:** Green, orange red to red in fall

**Notes:** Excellent choice when a fast growing maple is desired. Strong, ascending branches form a dense, rounded crown. Numerous, small red flowers appear before the leaves in early spring, hence the name red maple. Its most outstanding ornamental feature is its stunning orange-red to red fall color. Autumn Radiance turns about two weeks earlier than October Glory and Red Sunset.
