

# CHALET SWISS STONE PINE

*Pinus cembra 'Chalet'*

**Height:** 10-15'      **Spread:** 3-6'

**Location:** Zone 4, sun

**Shape:** Narrowly conical, dense

**Foliage:** Soft, blue-green w/ white undersides

**Notes:** A beautiful, narrowly conical form of Swiss Stone Pine, 'Chalet' grows slowly into a dense, compact tree that is perfect for today's smaller landscapes. Clusters of soft-to-the-touch, blue-green needles with white undersides add a fluffy elegance to this extremely hardy choice, and colorful cones add character.

# SILVER WHISPERS SWISS STONE PINE

*Pinus cembra 'Klein'*

**Height:** 12'      **Spread:** 6'

**Location:** Zone 3, full sun

**Shape:** Dense pyramidal

**Foliage:** White-striped dark green needles

**Notes:** A very hardy evergreen for spatially challenged landscapes. Exceptional form is densely packed with white-striped dark green needles that produce a useful silvery plant. Accented with 3 inch long decorative violet-blue cones.
